Union County Health Center has grand opening

By Marianne Rose
Union County Leader
Reporter

On Wednesday, February 8, 2017, the Union County Health Center had its grand opening in the newly remodeled building across the street from the old Clayton Family Prac-

tice building. At present the practice is still called Clayton Family Practice. That will change as soon as they get their Rural Health Clinic designation.

Judith Cooper, President of the Union County General Hospital board, gave the introductions. Union County Commission funded and supervised the renovations to the building.

Ms. Cooper noted the

hospital's appreciation of past Chief Executive Officer Jerry Wiesner for his support and involvement in obtaining the rural health clinic designation and the renovation of the new building.

Jay Fluhman, FNP, ACNP, was touted as a model of patient oriented health care. Union County General Hospital (UCGH) is very appreciative she chose to return to practice in their facility.

Union County Health Center opens

COMMUNITY RESIDENTS have attended the newly opened Union County Health Center that can treat patients with practitioners and were officially

welcomed to the community. A ribbon cutting Clayton/Union County Chamber of Commerce. Good Health to all!
