

## A STRONG HISTORY HELPING HOSPITALS

The healthcare industry has changed in the two decades since Community Hospital Corporation was established as a not-for-profit company by a group of concerned hospital leaders to preserve healthcare in local communities. Our mission is steadfast: to guide, support and enhance the mission of community hospitals and healthcare providers. We bring the resources and expertise needed to improve financial performance and stability in the face of unprecedented pressures.

**CHC was founded in Plano, Texas** in 1996. Jim Kendrick serves as President and CEO.

**CHC establishes CHC ContinueCARE**, a post-acute care organization, to advance long-term acute care hospitals, or LTACHs.

**CHC's 10-year anniversary** marks the start of new services for community hospitals, including supply chain management services, managed care services, and IT services.

**CHC completes the first of many Community Health Needs Assessments**, helping hospitals to meet and remain compliant with federal regulations.

**CHC founds the Rural & Community Healthcare Collaborative (RCHC)**, a 501(c)3 charitable organization that makes available no- and low-cost consulting services to community hospitals to ensure their solvency and sustainability.

**CHC begins its long-term relationship** with Yoakum Community Hospital, and with Baptist Hospitals of Southeast Texas two years later, creating a path of performance improvement for many community hospitals to come.

**CHC forms CHC Consulting**, providing hospital consulting and management services.

**CHC, through a partnership with HealthTrust**, offers group purchasing organization (GPO) access to community hospitals and later, in 2015, officially launches CHC Supply Trust.

**A highly rated employer**, CHC ranks among Becker's Hospital Review's list of 150 Great Places to Work and the Dallas Morning News' Top 100 Places to Work for two consecutive years.

## THE PATH AHEAD

CHC owns, manages and consults with hospitals through three distinct organizations—CHC Hospitals, CHC Consulting and CHC ContinueCARE—led by seasoned executives with a proven ability to strengthen or, when necessary, turn around distressed hospitals across the country. CHC has consulted with more than 100 hospitals in 26 states and counting.

Looking forward, CHC President and CEO Jim Kendrick shares, "We are passionate about helping community-based hospitals remain viable and valuable community assets for the people they serve. We will evolve and remain flexible in order to best serve hospitals during times of change and opportunity."
