

Brian Stopinski

Corporate IT Operations Director

As the Corporate Information Technology (IT) Operations Director for CHC, Brian Stopinski supports 1,200 long-term acute care hospital (LTACH) users, manages dozens of healthcare services and corporate projects, supervises the CHC Help Desk operations, and is the primary Google expert for all LTACH users. Prior, Brian served as Senior Systems Administrator for CHC.

With over two decades of professional experience, Brian began his career in IT with Halo Branded Solutions. He also served as an IT Infrastructure Administrator for Heritage Interactive Services. In addition, Brian has served as an IT Project Manager and IT Infrastructure Manager for Evigna Brand Insight; an IT Project Manager for Netlink Software Group; and a Systems Field Engineer for Bensussen, Deutsch & Associates.

As part of his specialized training, Brian completed his A+ Certification and has participated in the Willow Creek Association Leadership Summit. He has served on several employee leadership and management teams including Quality of Service Management and International Organization for Standardization Auditor Training. Brian received his Associate of Applied Science in Computer Networking Technology from Baker College, Auburn Hills, Michigan.
