

## Carl Whitehead

### Corporate Manager Supply Chain Analytics

Carl Whitehead serves as Corporate Manager Supply Chain Analytics for CHC. In this role, he assists with supply chain management initiatives and conducts data analysis for CHC owned and managed hospitals. In addition, he prepares cost analysis, conducts price audits, and monitors and reports contract compliance.

Carl brings to the team more than 10 years' experience in corporate financial planning and analysis, and supply chain management. He has held several key positions within finance and informatics departments and has acted as a subject matter expert and resource liaison during his career.

Before joining CHC, he spent three years at CHRISTUS Health as Senior Performance Management Analyst II specializing in Financial Reporting and Analytics. Prior to this, Carl spent five years with Reddy Ice Corporation as Electronic Data Interchange Manager specializing in Strategic Planning/ Operations and Cash Flow Analysis.

Carl has a Masters of Business Administration in Strategic Leadership, Amberton University, Garland, TX and a Bachelor of Arts in Business Management, University of Texas Pan-American, Edinburg, TX.
