

Sabrina Albert

Director Financial Analysis

Sabrina Albert serves as Director of Financial Analysis for CHC. In this role, she works closely with the Senior Vice President Hospital Financial Operations, and is responsible for financial analysis, forecasting, financial support, pro forma and monthly operating report preparation for CHC hospitals and hospital clients.

Before joining CHC, Sabrina worked for Parkland Health & Hospital System and Parkland Foundation in various capacities, including Grant/Contract Specialist, Accounting Specialist, and lastly, Decision Support Analyst, where she administered the Action O-I® Operational Benchmarking program, and was involved in the design of the hospital's Balanced Scorecard for use as an operational and financial performance monitoring tool. Previous responsibilities included the implementation of Parkland's financial modeling software for forecasting, as well as statistical and financial reporting.

Sabrina's background also includes several years of experience with the Missouri Department of Health, where she was responsible for the accounting and financial control of several federal and state health grants and contracts. Sabrina holds a bachelor's degree in Psychology and an Master of Business Administration from the University of Arkansas, Fayetteville.
